SUMMARY

Proactive and detail-oriented Computer Science student specializing in UI/UX design and full-stack development. Proven ability to translate high-fidelity designs into functional applications using React, React Native, and Figma. Eager to leverage strong problem-solving and communication skills to contribute to a collaborative team environment.

EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science - Cumulative GPA: 8.21/10.0

Bhopal, India

Aug. 2023-Present

Central Academy

Senior Secondary (CBSE, Grade 12)

Prayagraj, India

Apr. 2022-Mar. 2023

Laurels School International

Secondary (CISCE, Grade 10)

Indore, India

Apr. 2020-Mar. 2021

PROJECTS

E-Waste Wise

github.com/vitthal012/e-waste-wise

- **Implemented a device assessment form** and conditional logic with Next.js Server Actions to provide tailored advice.
- **Integrated Google Maps API** for locating nearby recycling centers and **Google Gemini API** for AI-driven component insights.
- **Technologies:** Next.js, TypeScript, Tailwind CSS, Google Maps API, Google Gemini API

PhaserShooter

github.com/vitthal012/space-shooter

- **Architected a full-stack web game** featuring a persistent online leaderboard and real-time score updates.
- **Built the game client with Phaser 3**, implementing core mechanics like physics, collision detection, and scene management.
- **Developed a RESTful backend API** using Node.js and Express.js to manage high scores and leaderboard data.
- **Integrated a Supabase PostgreSQL database**, securing data access with Row Level Security (RLS) policies.
- **Technologies:** Phaser 3, Node.js, Express.js, Supabase, JavaScript, HTML/CSS

Yeti - Social Media App

github.com/vitthal012/yeti-app

- **Developed a Flutter-based mobile application** that allows users to post and share their thoughts within a clean UI.
- **Implemented user authentication** with Firebase to enable secure login and personalized access for each user.
- **Built a personalized profile page** displaying user-specific posts and information for a tailored experience.
- **Integrated Google Firebase** for its real-time database, secure authentication, and scalable cloud functionality.
- **Technologies:** Flutter, Dart, Firebase, Figma

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, javascript, Java, SQL

Frameworks & Libraries: React, Flutter, Node.js,

Design & Developer Tools: Figma, GitHub, VS Code,

Databases & Cloud: Firebase, Firestore , Supabase

EXTRACURRICULARS & INTERESTS

AI Club Design Team Core Member

Android Club PR & Outreach Team Core Member

Languages: English (Fluent), Hindi (Native)

Hobbies: Chess, Table Tennis, Reading
